

October 7, 2020

Dear Arcadia Residents,

As you all are aware, on September 26th, an independent living resident who resides on the 12th floor at Arcadia tested positive for COVID-19. This resident has been in the hospital since September 25th and will be returning home to Arcadia on October 8th.

This resident has been cleared by the hospital's infectious disease physician as no longer infectious. Arcadia's 14-day quarantine period required when returning from the hospital is not necessary for this resident as the resident has already had the disease. We will closely monitor the resident for signs and symptoms, but the resident is not required to quarantine.

All residents on the 12th floor who have been in isolation since September 26th have undergone two rounds of testing yielding all negative results. They will have a final round of testing on October 10th.

Staff have completed three rounds of testing, with the last round conducted on October 6th. All results received are negative and 16 results are pending.

With respect to the Independent Living Outbreak on the 12th Floor, once all negative results are received from the October 6th employee testing and the October 10th resident testing, all residents on the 12th floor will be released from isolation precautions and able to move throughout the Arcadia community. Arcadia will continue a 2-week monitoring period as required by the Hawaii State Department of Health.

What does this mean for residents who reside on Floors 4-Solarium?

- Beginning Wednesday, October 14th:
 - Residents who leave the community for non-essential visits will no longer be subject to a 14-day quarantine upon return.
 - Residents who go to the hospital or emergency room will still be required to quarantine for 14 days.

- Meal delivery will revert back to Dining Staff dropping off meals in each elevator lobby for Floor Coordinators to pick up and deliver.
- Garden visits will be re-instated.
- The Gift Shop will reopen.
- The Beauty Salon will reopen.
- Residents will be allowed to exercise off campus.
- Residents can utilize the first floor lounge – this includes sitting alone and reading the newspaper. Please be mindful of the five person maximum and do not move the furniture.
- Please keep small gatherings on your floors to no more than five people wearing face masks and physically distancing.
- Programs and Wellness classes will return to no more than five people.
- The Wellness Center will reopen and hallway exercises will end.

Thank you to everyone who lives and works at Arcadia! This was our first outbreak in Independent & Assisted Living and your ability to come together to mitigate the spread of COVID-19 within this building has been truly inspiring and encouraging.

A special mahalo to the residents of the 12th floor whose resilience continues to serve as a beacon of patience and discipline as they have patiently isolated in their apartments for over two weeks.

By no means are we out of the woods, as I'm sure this will happen again. Therefore, please continue to wear your mask, physically distance, wash your hands, let the Clinic know if you are not feeling well AND do not go out unless it's a necessity!

Sincerely,

Suzie Schulberg
President & CEO
